

One eProcurement System for All State Agencies and Local Governments

The State of Arkansas is currently implementing a new purchasing system and online shopping tool branded ARBuy. ARBuy will transform the procurement process for all State departments, entities and local governments, and allow suppliers to do business with Arkansas government more efficiently.

Free to All Locals: Shop State Contracts Online

One of the key features of ARBuy is the consumer-like online shopping tool for purchasing through statewide contracts. Free to all local governments, the ARBuy Marketplace is easy-to-use, cost effective and compliant – saving your organization time and money.

Periscope Holdings and ARBuy

Periscope Holdings is the technology provider for ARBuy. In addition, Periscope runs the ARBuy program, helping both buyers and suppliers across the state use the technology and purchase on state contracts.

Why Purchase from Arkansas Statewide Contracts?

- **Savings:** Buying together brings everyone lower prices negotiated through high-volume purchasing discounts. The more we buy together, the greater the savings we can negotiate.
- **Convenience:** Countless hours' time is saved by avoiding time-consuming RFPs, proposal reviews, and negotiations.
- **Security:** Each shoppable contract has already been vetted for compliance with Arkansas law ensuring their legality.
