REDUCE COSTS, STREAMLINE PROCESSES, INCREASE TRANSPARENCY

Excess Costs come from Process Inefficiencies and Maverick Spending — We Eliminate Both

BuySpeed is Periscope Holding's tool to automate the full procure-to-pay process efficiently, intelligently and transparently. It is an easy-to-use system with workflows and highly configurable approval paths that ensure compliance with all public procurement policies.

“With the implementation of BuySpeed, our city saved staff costs, excessive processing times, and data-entry errors.”
AMAZING RESULTS

I couldn't imagine doing business any other way!

~Marcheta Gillespie, CPM, CPPB, Deputy Director of Procurement, City of Tucson, AZ

Finally, a procurement solution that works with you. We'll remove the busy tasks, so you can focus on your most important work.

More than Process Improvements, a Pleasure to Work in

Our user interface and overall user experience make working within BuySpeed more like a consumer shopping experience than a work task.

Great user experience includes the look of the product but, more so, it's the way the product makes your work life more productive and helps your team communicate more clearly. Our design takes a holistic approach to ensure you get the best experience possible.

The screenshot displays the BuySpeed web application interface. At the top, there is a search bar and a 'Catalog' link. Below this, a dashboard shows three main metrics: 'Documents Ready for Approval' (0), 'Requisition Ready for Purchasing' (0), and 'Bid Solicitations Ready to Send' (0). A 'News' section shows a date of 08/06/2009 and a category of 'Forms and Inform...'. A 'Recent Documents' table is visible, listing document numbers, types, descriptions, statuses, and last viewed dates.
