

BuySpeed

eProcurement for Public Sector

REDUCE COSTS, STREAMLINE PROCESSES, INCREASE TRANSPARENCY

Excess Costs come from Process Inefficiencies and Maverick Spending — We Eliminate Both

BuySpeed is Periscope Holding's tool to automate the full procure-to-pay process efficiently, intelligently and transparently. It is an easy-to-use system with workflows and highly configurable approval paths that ensure compliance with all public procurement policies.

“With the implementation of BuySpeed, our city saved staff costs, excessive processing times, and data-entry errors.”
AMAZING RESULTS

I couldn't imagine doing business any other way!

~Marcheta Gillespie, CPM, CPPB, Deputy Director of Procurement, City of Tucson, AZ

Finally, a procurement solution that works with you. We'll remove the busy tasks, so you can focus on your most important work.

More than Process Improvements, a Pleasure to Work in

Our user interface and overall user experience make working within BuySpeed more like a consumer shopping experience than a work task.

Great user experience includes the look of the product but, more so, it's the way the product makes your work life more productive and helps your team communicate more clearly. Our design takes a holistic approach to ensure you get the best experience possible.

The screenshot displays the BuySpeed web application interface. At the top, there is a search bar and a 'Catalog' link. Below this, a dashboard shows three key metrics: 'Documents Ready for Approval' (0), 'Requisition Ready for Purchasing' (0), and 'Bid Solicitations Ready to Send' (0). A 'News' section shows a date of 08/06/2009 and a category of 'Forms and Inform...'. A 'Recent Documents' table is visible, listing document numbers, types, descriptions, statuses, and last viewed dates.

Document #	Type	Description	Status	Last Viewed
ADSP015-00068728	Requisition	Catalog Requisition	In Progress	05/04/2016
ADSP015-00068727	Requisition	Test	In Progress	05/04/2016
ADSP015-000111779	Blanket / Contract	BSPD-18719	In Progress	05/03/2016
ADSP015-000111779	Blanket / Contract	BSPD-18719	In Progress	05/03/2016

BuySpeed

eProcurement for Public Sector

A Better View of Your Spend, Suppliers and Contracts

With BuySpeed integrated throughout your organization, you gain broader visibility into what your organization spends, how to connect with your suppliers and where your contracts are. Your team can make better decisions, faster, for less money. Everyone Wins.

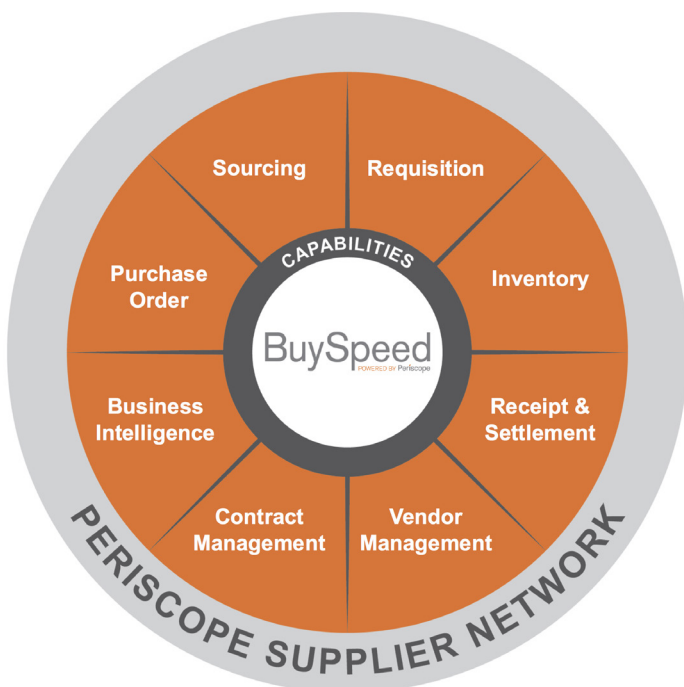

Perscope Holdings has the expertise to effectively integrate with any financial system or ERP. BuySpeed has been integrated to some of the most popular systems including SAP, PeopleSoft, CGI and Microsoft Dynamics.

When Your Suppliers Succeed, You Succeed

The latest version of BuySpeed comes armed with built-in access to the only supplier network created for the public sector and higher education. With almost 1 million suppliers, the Periscope Supplier Network helps buyers increase competition, exceed transparency standards, and support suppliers with more opportunities and easier ways to respond.

BuySpeed Capabilities

- **ePROCUREMENT** is a web-based, procure-to-pay solution that enables customers to reduce costs and improve efficiencies in their procurement process.
- **SOURCING** provides customers a strong catalog, solicitation and contracting solution to facilitate and manage strategic sourcing.
- **eCATALOG** provides customers a catalog and e-requisitioning solution. BuySpeed eCatalog enables customers to web-enable legacy purchasing system, and create baseline functionality for e-requisitioning, contracts or punch-outs.
- **BUSINESS INTELLIGENCE & REPORTING** extends BuySpeed's already rich business intelligence toolset with pixel-perfect reporting, ad hoc capabilities, crosstabs, and dashboards.
- **INVOICING** BuySpeed Invoicing incorporates real-time validation routines; ensuring customers pay for only goods and services they have actually received.
- **VENDOR MANAGEMENT** empowers suppliers and ensures state and local governments comply with fair and competitive procurement process.
- **CONTRACT MANAGEMENT** delivers feature-rich functionality to enhance the efficiency and productivity of the contract management process.
- **INVENTORY** provides customers a full-featured inventory module that offers robust transactional support for issues, adjustments, cycle counts, transfers and returns.
